

Tender Addendum No. 01 – Technical Clarification

Tender No.: ITT-2025-1011

Issue Date: 19/12/2025

1. Purpose of this Addendum

This Addendum is issued to **formalise the technical clarification** referenced in the email issued on **18 December 2025** and to provide tenderers with sufficient time to review and respond accordingly.

2. Technical Clarification

2.1 Load Testing Requirement

For the avoidance of doubt, the Specification requires compliance with Australian Standard AS 1418. In accordance with **AS 1418.2 Clause 1.11**, winches are required to undergo a **proof load test at 125% of the Maximum Rated Capacity (MRC)**.

This clarification **does not introduce a new requirement** but confirms the application of the referenced Australian Standard already specified in the tender documents.

Unless otherwise stated, all other technical requirements remain unchanged.

2.2 Quotation

The **torpedo counterweight is not required** to be included in the tender price. Please use Attachment F – Quotation List (Rev.1) if there are any changes to the tender price.

3. Extension of Tender Closing Date

As previously advised, the tender closing date has been extended to allow tenderers sufficient time to consider this clarification. Revised Tender Closing Date and Time: 5:00 PM, 23 December 2025.

4. Acknowledgement

Tenderers are requested to review this Addendum in conjunction with the tender documents and acknowledge receipt via the tendering platform.

Yours Sincerely,

Caifeng Bian
