

## The Environment

At Karara, we place a premium value on the environmental values of the mid-west region where we operate. To protect and enhance the environment and to eliminate or reduce any potential adverse impacts, we:

- Assess and prioritise environmental matters associated with our activities
- Commit to protect the environment, through:
  - The prevention of pollution from our operations
  - Incorporating environmental considerations into our work task planning
  - Progressively rehabilitating areas impacted by our operations and activities
  - Implementing programs to proactively manage regional biodiversity
- Never compromise on our environmental standards and obligations
- Communicate openly with all our stakeholders on environmental matters
- Partner with agencies to support research to understand the local environment
- Set environmental objectives and targets and measure progress towards them to drive continuous improvement
- Apply, maintain and continually improve an effective environmental management system to maintain compliance with our obligations and enhance environmental performance
- Meet the legal requirements and regulatory obligations that apply for our business activities and apply responsible standards where laws do not exist.
