

The Environment Policy

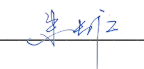

At Karara, we place a premium value on the environmental values of the mid-west region where we operate. To protect and enhance the environment and to eliminate or reduce any potential adverse impacts, we:

- Assess and prioritise environmental matters associated with our activities.
- Commit to protecting the environment, through:
 - The prevention or minimisation of pollution from our operations;
 - Incorporating environmental considerations into our work task planning;
 - Progressively rehabilitating areas impacted by our operations and activities; and
 - Implementing programs to proactively manage regional biodiversity.
- Never compromise on our environmental standards and obligations.
- Engage local community and communicate openly with all our stakeholders on environmental matters.
- Partner with agencies to support research to understand the local environment.
- Set environmental objectives and targets and measure progress towards them to drive continuous improvement.
- Apply, maintain and continually improve an effective environmental management system to maintain compliance with our obligations and achieve excellent environmental outcomes.
- Meet the legal requirements and regulatory obligations that apply to our business activities.
- Demonstrate innovation in environmental management and strive to go beyond regulatory requirements.

Mr Changjiang Zhu
Chief Executive Officer
